

DIVISION OF SPACE

*ka lani pa'a*

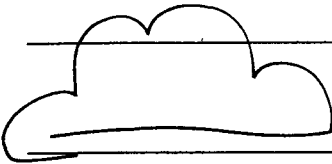

The region in heaven that seems remote when looking up into the sky. | Thought to have contained a "track" which the sun traveled on until it set beneath the ocean. | The orbits of the moon and stars were also thought to be in the same region. The earth was thought to be solid and motionless.

*ka lani uli*

*ke ao ulu*

*luna o ke ao*

The region in the sky where the clouds float.

*luna lilo loa*

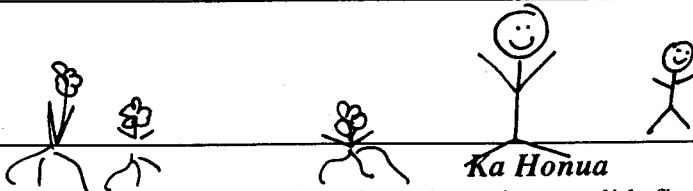

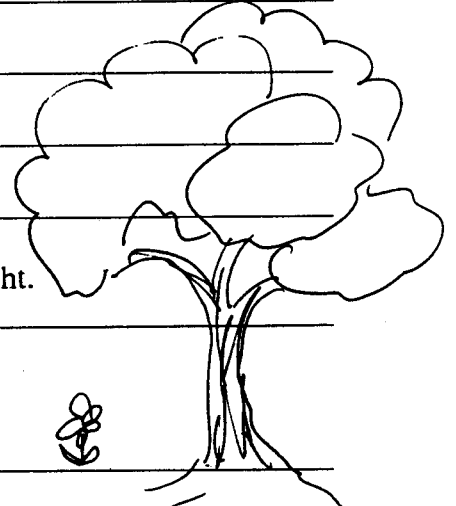

*luna lilo aku*

*luna loa aku*

*luna aku*

*luna a'e*

Area just above one's head when standing upright.

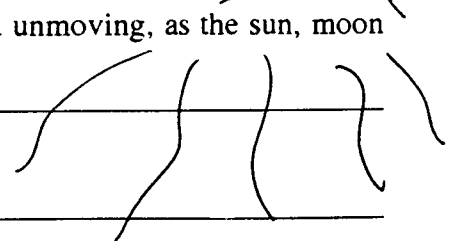

*Ka Honua*

The place where we stand. Thought to have been solid, fixed, and unmoving, as the sun, moon and stars orbited around the earth.

*lalo, i lalo*

The place below where we stand.

*lalo o ka lepo*  
Underground.

*lalo liloa (lalo lilo loa)*

*lalo ka papa ku*
